

# California OES Weather Threat Briefing

Thursday, May 13, 2021  
9:00 AM PDT

**Day 1 (Wednesday):** Minor heat impacts continue this afternoon across the Central Valley and southern California deserts with widespread temperatures in the 90s and lower 100s

National Weather Service  
Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT

# **WEATHER KEY POINTS**

**05/13/21 - 05/19/21**

## **Thursday-Wednesday**

- Widespread temperatures in the 90s to lower 100s continue one more day today for the Central Valley and southern California deserts, with a cooling trend expected for many areas into the weekend
- Scattered showers and thunderstorms appear increasingly likely across northern California on Friday, with additional scattered storms over the central and northern Sierras through the weekend.
  - No significant rainfall is expected, but locally gusty winds are possible near any thunderstorms
  - Lightning could lead to some new fire starts
